Office Action Summary	Application No. 10/073,672	Applicant(s) CAO, DENSEN CH	
	Examiner Ralph A. Lewis	Art Unit 3732	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Rejections based on Prior Art

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mills (WO 99/16136) in view of Logan et al (6,692,251)

In Figure 5 Mills discloses a dental light curing device having a housing 47, an air space between housing 47 and elongated secondary heat sink 45 with proximal and distal ends (sides). The Mills device further includes a thermo electric cooler 50 and a fan 49 for circulating air past the thermo cooler 50. While it is not explicitly disclosed, the ordinarily skilled artisan would readily recognize that the housing must necessarily have a vent in order for the fan 49 to work. Mills further discloses a plurality of covered LEDs 43 located on primary heat sink 49 and light transport device 41 for transporting light to a remote location. The Figure 5 Mills embodiment fails to include the claimed light reflective device and focusing lens. Logan et al, however, teach that for a similar dental curing device in Figure 4 that it is desirable to provide unpackaged LEDs on a heat sink 36 with a cover 40, a light reflective device 43 and a focusing lens 44. In figure 4 of Logan et al the focusing lens 44 focuses light on to light transport device 76. To have provided for such an LED, light reflective and focusing arrangement in the Mills

Art Unit: 3732

device in order to enhance the amount of light as taught by Logan et al would have been obvious to one of ordinary skill in the art.

Action Made Final

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to **Ralph Lewis** at telephone number **(703) 308-0770**. Fax (703) 872-9306. The examiner works a compressed work schedule and is unavailable every other Friday. The examiner's supervisor, Kevin Shaver, can be reached at (703) 308-2582.
